RECORD PLAYER

Mantle

A record player that floats on its own light.

PENDING

Mantle: a new render

It goes here when it passes the critics.

Its tinted plinth floats 40 mm over a base that glows at its edge. The motor stands apart in a pod of its own, on soft feet, so its hum stays out of the plinth, and the phono stage is built in. The lid's hinges sit on brass inserts, so no screw cuts the acrylic. The name: the layer that moves beneath the crust.

PLINTH	Tinted cast acrylic, 25 mm; it floats 40 mm over the base
BASE	Cast acrylic, edge-lit from within, dimmable
DRIVE	Belt, its motor in a heavy pod of its own
SPEEDS	33 and 45, by a button
ARM	Rega RB330
CARTRIDGE	Ortofon 2M Black
PHONO STAGE	Built in, for moving-magnet cartridges, with a line out and a bypass
COVER	Tinted acrylic, hinged
SIZE	470 wide, 380 deep, 194 high with the lid down (mm)
WEIGHT	About 15.5 kg

IN DEVELOPMENT AND NOT YET FOR SALE. EVERY PICTURE IS A RENDER UNTIL THE FIRST ARE BUILT. FIGURES ARE DESIGN FIGURES; MEASURED ONES FOLLOW WITH THE FIRST PAIR. PRICES ARE SET AT LAUNCH.
