EARF

Hi-fi and light, cast in tinted acrylic, in seven colors, Ember to Fog.

EARF is a San Francisco maker of hi-fi and lighting in tinted cast acrylic. Every product comes in the same seven colors, from Ember to Fog, so a room can be one color or three. Each is named for a layer of the Earth. A wall of tinted acrylic 20 mm thick shows what is inside it.

WHERE IT STANDS	Tropos is drawn for making, part by part: more than eighty parts, each with its fabrication drawing. The horn and the bass were worked out by simulation before any acrylic was cut. Next, the first pair, built as production will build it; then measured, by ear and by microphone. The lamps and Mantle follow the same way
