Mantle

A turntable in cast acrylic.

PENDING

Mantle: a new render

It goes here when it passes the critics.

A turntable in cast acrylic. The plinth floats 40 mm over its base. Rega's 24 V motor hangs beneath the deck on Rega's grommets, and the phono stage is built in. The lid's hinges sit on brass inserts, so no screw cuts the acrylic. The name: the layer that moves beneath the crust.
