Something in the air.

EARF makes hi-fi and lighting in cast acrylic, tinted all the way through, in eight colours. Four pieces, named for the Earth, made to order and sold direct. Drawn, engineered and priced; not yet built. This raise builds the first of each and debuts them in San Francisco.

Tropos

A powered horn loudspeaker: 15-inch woofer, 2-inch compression driver, Hypex amplifier built in.

`$19,000 a pair (planned)`

Hemisphere

A pendant whose shade swaps in a quarter turn.

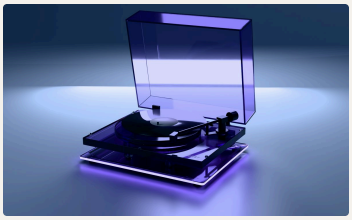

`$795–$895 (suggested)`

Core

A table lamp, plugged in or not, on cells the owner can replace.

`$650`

Mantle

A record player that floats on its own light.

`About $5,000 (suggested)`

Why now

$1.04B

US vinyl sales in 2025, up 9.3%, the 19th straight year of growth; the first half of 2026 rose another 17.7%.

$516,600

An acrylic chair at auction: Kuramata's Miss Blanche, Phillips New York, June 2022, more than double its low estimate.

Sold out

A designer's horn speaker: Klipsch × OJAS kO-R1, 100 pairs at $8,498; then 600 numbered pairs at $11,995.

The plan: each step paid for by the one before

1. **Prototypes and a debut.** This raise: the first Tropos pair and one of each lamp and Mantle; a debut night in San Francisco; real photographs; a waiting list and deposits.
2. **Certification and a first batch.** A pre-seed raised on those deposits: FCC, UL and California listings, the production horn tool, the first made-to-order pairs.
3. **Planet EARF.** Financed on its own, $1.0–1.6 M: a listening bar in San Francisco that sells everything in it.

Done

- Drawings and parts lists for all four
- Horn, heat and batteries engineered
- Compliance mapped
- Names searched; earf.world built

Not yet

- No prototype built
- No sales or deposits
- Every picture is a render
- Production costs wait on quotes

THE ASK

$50,000

Tropos prototype pair: parts and tooling	$19,200
Hemisphere, Core and Mantle, one of each	$10,400
Casting minimums, labour and finishing*	$8,000
Trademark search* and filings	$3,600
Emissions pre-scans, Tropos and Core*	$2,000
The debut: crating, transport, photographs*	$4,000
Contingency	$2,800
Total	**$50,000**

From angels who love hi-fi and design, and Kiva's 0% loans. Terms: [to set]. * Allowances until quotes replace them.
